LOGAN COUNTY --- ATLANTA [40.27, -89.23]				
	06/01/09 18:53 CST		2K	Thunderstorm Wind (EG 52 kt)
	06/01/09 18:54 CST		0	Source: Emergency Manager
A tree was blown down in Atlanta.				
DE WITT COUNTY --- CLINTON [40.15, -88.95]				
	06/01/09 19:17 CST		10K	Thunderstorm Wind (EG 52 kt)
	06/01/09 19:18 CST		0	Source: Emergency Manager
Several large tree limbs were blown down, causing scattered power outages around Clinton.				
A slow-moving cold front triggered widespread thunderstorms across parts of central Illinois during the afternoon and evening of June 1st. The storms primarily affected locations along and north of a Rushville...to Lincoln...to Danville line. Numerous reports of large hail were received, as well as some scattered wind damage. Very heavy rain produced flash flooding north of Danville.				
EDGAR COUNTY --- 3.6 NNE CHRISMAN [39.85, -87.65]				
	06/02/09 14:00 CST		0	Hail (0.88 in)
	06/02/09 14:01 CST		0	Source: Emergency Manager
SANGAMON COUNTY --- 1.6 SW WILLIAMSVILLE [39.93, -89.57]				
	06/02/09 16:10 CST		0.10M	Thunderstorm Wind (EG 52 kt)
	06/02/09 16:20 CST		0	Source: NWS Employee
The roof of a pole barn was lifted off by strong winds. The building had no doors and was open to the south. Based on radar data, a microburst with winds of between 50 and 60 mph likely caused the damage.				
LOGAN COUNTY --- ELKHART [40.02, -89.48]				
	06/02/09 16:30 CST		5K	Thunderstorm Wind (EG 52 kt)
	06/02/09 16:31 CST		0	Source: Mesonet
Several large tree limbs were blown down in Elkhart.				
LAWRENCE COUNTY --- 2.8 S GRAYS CORNER [38.61, -87.73]				
	06/02/09 17:00 CST		10K	Thunderstorm Wind (MG 65 kt)
	06/02/09 17:01 CST		0	Source: AWOS
A 75mph wind gust was measured at the Mt. Carmel AWOS. Six roof panels were blown off a building at the airport. Based on radar data, a microburst likely caused the damage.				
A nearly stationary frontal boundary triggered marginally severe thunderstorms across central and southeast Illinois during the afternoon and early evening of June 2nd. Microbursts caused localized wind damage in Sangamon and Lawrence counties.				
MARSHALL COUNTY --- 3.0 SSW HENRY [41.08, -89.40]				
	06/07/09 20:45 CST		90K	Lightning
	06/07/09 20:45 CST		0	Source: Newspaper
Lightning struck a mobile home near Henry and started a fire. The fire destroyed the mobile home. An occupant of the structure sustained minor burns from the fire.				
A warm front lifting through central Illinois during the late evening of June 7th produced scattered thunderstorms. One of these thunderstorms produced a lightning bolt which struck a mobile home near Henry and destroyed it.				
DOUGLAS COUNTY --- TUSCOLA [39.80, -88.28]

Local law enforcement reported several trees blown down across Richland County.				
A line of severe thunderstorms produced wind gusts of 60 to 85 mph, large hail, torrential rainfall, and nearly continuous lightning across much of central and southeast Illinois during the early morning of June 18th. The high winds resulted in multiple power outages, downed trees and power lines, and damage to light poles, outbuildings, and several homes.

A warm front lifting northward through the region triggered severe thunderstorms during the early afternoon of June 18th. These storms occurred in the wake of the early morning convection that brought widespread wind damage to central Illinois. The early afternoon storms were confined to locations along and north of I-74 and produced several reports of 1-inch diameter or greater hailstones.

Storm Data and Unusual Weather Phenomena - June 2009

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

A downburst with estimated winds of 85 to 90 mph caused widespread wind damage on the south side of Oakwood. Tin roofing material was lifted off a barn just south of Route 150 and west of South Oakwood Street. Numerous large trees and tree limbs were blown down, causing damage to several mobile homes. Further south, five power poles were blown down and a garage was destroyed on South Oakwood Street. Extensive tree damage continued about three quarters of a mile east into a heavily wooded area. Several homes were damaged in this area.

A power pole was blown down.

JASPER COUNTY --- 2.5 WSW WHEELER [39.03, -88.36], 3.5 ESE HUNT CITY [39.03, -87.96], 3.7 ENE ST MARIE [38.96, -87.96], 2.2 WSW LATONA [38.97, -88.36]	06/20/09 00:30 CST		0	Flash Flood (due to Heavy Rain)
	06/20/09 04:30 CST		0	Source: Law Enforcement

Thunderstorms with heavy rainfall of nearly 5.00 inches produced flash flooding in a narrow band across central Jasper County. Numerous roads were inundated in and around the city of Newton.

CRAWFORD COUNTY --- 2.4 NW PIERCEBURG [38.95, -87.95], 2.8 ESE TRIMBLE [39.06, -87.63], 1.9 N HEATHSVILLE [38.93, -87.57], 2.6 SSW PIERCEBURG [38.89, -87.94]	06/20/09 00:45 CST		0	Flash Flood (due to Heavy Rain)
	06/20/09 04:30 CST		0	Source: Law Enforcement

Thunderstorms produced heavy rain of 3.00 to 4.00 inches in central and eastern Crawford County. Many rural roads were inundated with high water.

A cold front triggered severe thunderstorms across central Illinois during the late afternoon of June 19th into the early morning hours of June 20th. An isolated supercell developed across DeWitt County during the late afternoon, then tracked eastward to the Indiana border. This cell produced large hail along its path and triggered a couple of brief tornadoes in Vermilion County. Additional storms swept across the region during the late afternoon and evening, producing widespread wind damage. Heavy rain in parts of southeast Illinois late in the evening resulted in areas of flash flooding.

JASPER COUNTY --- 4.0 SSE GILA [39.07, -88.24]	06/21/09 16:07 CST		0	Hail (0.88 in)

A strong cold front approaching the Mississippi River triggered a line of strong to severe thunderstorms across west-central Illinois during the evening of June 27th. Numerous reports of wind damage were received, primarily along and west of the I-55 corridor. A fatality occurred in McLean County when a canopy blown into the road by a non-severe gust front caused a head-on collision.
